

SchoolMessenger Notification Service

The District has signed on with SchoolMessenger, a company that provides notification services for parental outreach, emergency broadcasts, student attendance alerts and other communications for education.

The system can be directed to call parents for a variety of reasons that impact the safety and/or academic performance of our students. SchoolMessenger will be used to complement the district's communication efforts and procedures and to inform parents of upcoming school events (such as standardized testing or health issues).

SchoolMessenger will not replace traditional modes of school communication. Principals will still be accessible for live visits and the district will still send home paper-based memoranda. The acquisition of the SchoolMessenger system is intended to reinforce the district's commitment to remain personally connected to parents.

New to District? Your student will be automatically enrolled in the School Messenger system with the home phone number you supplied to your school in the Registration Packet.

Want to customize your School Messenger Account? At the end of summer the District will mail the sign up information needed to create your own custom profile. By adding phone numbers or email addresses and selecting a preferred method of contact for each type of call (Emergency, Late Opening, Etc.) you can tailor the system to meet your families unique communication needs.

NOTE: Parents of Mid-year enrolled students requesting a custom profile will need to contact their local school office. Please allow two weeks for processing and mailing.

*Connecting educators with
millions of parents, students and staff every day*
