Request for Information Response

RFI Number: Bid 06-08
Response Date: September 8, 2022
Project Name: Pleasant Valley Elementary School – Technology Equipment
CES Project Number: 2020244.00
Written By: Kevin King, PE

We have received the RFI(s) indicated above as submitted by Environmental Systems Corporation on 9/08/22 and have the following response.

RFI-06:

II presume that Item ID AP-1C is in reference to the WiFi aspect of the project. In other words, Item ID AP-1C is exclusively in reference to Item ID's AP-1A through AP-3? Please acknowledge.

Response: [Correct.](#)

RFI-07:

I do not see any request for labor Installation, Mounting, Configuration, Setup and Final Connections onto the Owners Network relative to the switching assets in the RFP. Can you please confirm?

Response: [Items LAN-1, LAN-2, LAN-3, LAN-4, LAN-5, LAN-6, LAN-7, LAN-8, LAN-9 and LAN-10 will require installation, mounting, configuration, setup and final connections onto Owner's network be included in contract. This is in addition to other items that list this requirement in the specification schedule. This will be clarified via Addendum.](#)

RFI-08:

I pointed out previously that 1YR of Foundation Care for the new 7210 is necessary but yet I see no mention of that in the RFP.

Response: [This will be required. This will be added via Addendum.](#)
